

VISITING THE PATCH

TIPS AND TRICKS FOR THE PATCH

Our U-Pick pumpkin patch is child and family friendly but it is a **working farm**. We find our visitors have the best experience when they come prepared!

1. DRESS APPROPRIATELY

Our off-the-vine U-Pick is just that - large pumpkins growing on their natural vine. Long pants and durable closed-toed shoes are necessary to explore the patch comfortably. And, if you're partaking in one of our hosted crafts, we encourage paint-friendly play clothes to get messy in!

2. WEAR SUN PROTECTION

Nothing is better for growing beautiful pumpkins like the sun, so don't expect much shade. We encourage visitors to wear sunscreen or bring hats to protect from sunburns and the heat.

3. FOLLOW THE PATCH RULES

We encourage free play and farm fun for all of our patch visitors. But we do ask that you follow our posted U-Pick rules to prevent injury or crop damage where possible.

4. BE CURIOUS!

As third generation farmers, we are thrilled to answer questions about our farm and our part in the rich history of Brentwood agriculture. We hope to inspire future farmers!
